A photograph of a cowboy riding a dark horse in a corral with calves. The cowboy is wearing a light-colored shirt and a cowboy hat. The horse is dark-colored and is rearing up slightly. There are several calves in the corral, some black and white and some solid black. The corral is enclosed by a wooden fence. In the background, there is a large, bare tree and a blue sky with some clouds.

KING

SERIES

The new King Series was built with you and your horse in mind. We have put many years of experience and craftsmanship into this saddle. With reasonable care your New King will give you years of service. We have built your saddle on a good foundation "The Famous Fibregloss Covered Tree." We have used only poplar wood made hard and durable by nature. The horn is bolted completely thru the front with four bolts. A steel plate is used to anchor the bolts—your assurance that the horn will not break. The best Scholze leather available has been selected for this King Series of saddles. You can ride your New King Saddle with pride knowing that—For the Ride of Your Life—Ride Big Horn.

Note . . . Horn is not silver laced.

RANGER

SERIES

The leather used in this Ranger Series is made of Top Grain Steerhide. Scholtz Tannery finest leather is used throughout. Look closely for barbed wire scratches and tick bites. They tell the story of the steer's life on the open range. The beauty and rugged strength of this leather is found in no other. No filler, paint or sandpaper is used to produce this beautiful finish. The finish and leather tends to darken slightly, growing more beautiful with age. Remember—For the Ride of Your Life—Ride Big Horn.
