MOSEY OAK CAMOUFLAGE LEATHER

CamoTan leather offers the Mossy Oak obsession camouflage design right on the leather. The design is placed on, and into, the leather using a high tech method that allows for durability. The design is not printed on the leather surface only... but actually penetrates into the tissue which makes it more durable and visually appealing.

Mossy Oak name and trademark used with permission.

Amtech Saddle Trees

There are decades of saddle building experience packed into an Amtech saddle tree. Built to withstand the test of time and the test of the trail, Amtech saddle trees are made to exacting standards using a method that produces uniform, consistent, one piece trees. No separate pieces to work loose and no wood material to warp or rot. This means a better over all product for the saddle buyer.
