Shaped harness leather breast collar. Doubled and stitched. Hand finished.

No. 4422 3/4" Harness Leather Contest Reins

3/4" x 7' Heavy harness leather with split leather grip. Conway buckle adjustment on one end, snap on other. Features solid brass hardware. Hand finished.

No. 4258 Tie Down Strap

Heavy harness leather. 3/4" x 37". Hand finished. Conway buckle adjustment on one end and snap on other. Solid brass hardware.

Training Equipment

No. 3435 Trainers Hackamore Headstall

Heavy 5/8" single-ply, hand-laced harness leather browband headstall with throat latch. Sized to fit the more popular mechanical hackamores. Hackamore not included. Features solid brass hardware. Hand finished.

No. 3430 Browband Headstall with Snaps

Heavy 5/8" single-ply, harness leather. Features solid brass hardware. Snaps at bit ends makes putting on and taking off bits fast and easy during training. Hand finished.

No. 3434 Shaped Ear Headstall with Snaps

Heavy 5/8" single-ply, harness leather. Features solid brass hardware. Snaps at bit ends makes putting on and taking off bits fast and easy during training. Hand finished.

No. 3433 Slide Ear Headstall with Snaps

Heavy 5/8" single-ply, harness leather. Features solid brass hardware. Snaps at bit ends makes putting on and taking off bits fast and easy during training. Hand finished.

No. 4402 3/4" Flat Roping Rein

Heavy single-ply, harness leather. Conway buckle adjustment on one end and scissor snap on other, 3/4" x 8'. Cut full 8 feet.

Features solid brass hardware. Hand finished.

Harness Leather Split Reins

Heavy harness leather reins with water loops for added length and weight. 5/8" x 8'. Hand finished. Cut full 8 feet.

No. 4416 5/8" x 7'

No. 4417 3/4" x 7'

No. 4426 5/8" x 8'

No. 4427 3/4" x 8'

No. 4428 1" x 8'

No. 3431
1" Harness Leather Browband Headstall
 Heavy 1" single-ply, hand-laced harness leather. Single-buckle cheek adjustment. Tie bit ends. Features solid brass hardware. Hand finished.

No. 3432
5/8" Harness Leather Browband Headstall
 Heavy 5/8" single-ply, hand-laced harness leather. Single-buckle cheek adjustment. Tie bit ends. Features solid brass hardware. Hand finished.

No. 3436
Half Breed Snaffle Combination
 Heavy 5/8" single-ply harness leather headstall with latigo curb strap. A combination of sidepull and snaffle allows for head control while moving into a bit. The combination of rope noseband and snaffle bit gives you the best equipment all wrapped up in one. Also ideal for working older horses. Features solid brass hardware. Hand finished. With Bitmaster bit.

No. 3441
Double Rope Side Pull
 Double-rope noseband. Hand-tied nylon lariat rope with heavy 5/8" single-ply, hand-laced harness leather headstall and latigo curb strap. The second ring for reins allows the noseband to roll across a horse's nose giving you better head position on your colt or young performance prospect. For those who prefer a wider area of pressure over the nose. Features solid brass hardware. Hand finished.

No. 3440
Single Rope Side Pull
 Heavy 5/8" single-ply hand-lace harness leather headstall with latigo curb strap. Features solid brass hardware. Hand-tied nylon lariat rope noseband. The second ring for reins allows the noseband to roll across a horse's nose giving you better head position on your colt or young performance prospect. Great for training. Hand finished.

No. 7936 EquiGrip Rubber Insert Pad with Contoured Wither Relief

This pad is made with a breathable, no-slip, waffle weave bottom, and a 1" thick rubber insert for shock absorbency. This insert evenly distributes weight across (and conforms to) the horse's back. To provide spine relief, the sides are connected without any filler. Also, the rubber insert is cut out in the leg area, allowing even closer contact with your horse. The contoured top line provides extraordinary wither relief and an exceptional fit. All of this works together to provide a non-binding, more comfortable fit while keeping the saddle secure and in place. The breathable, black PVC no-slip bottom also helps keep the saddle from shifting while promoting airflow under the pad, which prevents heat build-up and helps remove unwanted moisture. Leather wear leathers protect the pad from wear and tear.

Available colors: 290, 292, 294, 297, 300, 301. 30" x 32".

Breathable, No-Slip, Waffle-Weave Bottom Detail

The Moore EZ Buckle

P3

Big Horn's Tuffy brand is proud to introduce the Moore Stainless Steel double Roller Buckle Girth System with the Anti-Friction Supplemental Cross Bar. It is based on an 1880 patent by T. Moore. This two roller system allows the tie strap to roll freely, keeping it from binding and making tightening the cinch easy. This system also allows for easy adjustment while mounted.

Instructions for Using the Moore EZ Buckle Girth System

Step One

Step Two

Step Three

Step Four A

Step Four B

1) Run tie strap underneath, coming through the top roller of the buckle, then bring it back through the saddle rigging.

2) Next, bring the tie strap down and run it through the bottom roller. Remember to use the top roller for any anticipated additional tie strap. Use your bottom roller for final wrap only.

3) Gently, firmly, but not excessively pull the tie strap slowly to a snug position and secure it with the buckle tongue.

4) The buckle tongue will secure the position of the tie strap, and then either (A) tie off the tie strap or (B) use the latigo carrier.

Note: The girth dee should be well above the point of the elbow of the horse, and you should be able to run your fingers between the girth and horse just below the girth dee.

Tuffy Girths

with the Moore EZ Buckle

No. 9963

Elbow Relief Girth

Big Horn's new Elbow Relief Girth features a uniquely contoured shape to allow freedom of movement, and to alleviate chafing. This cinch also features all stainless steel hardware for corrosion resistance, including the Moore EZ Buckle double roller buckle system with the anti-friction supplemental cross bar. This two-roller system allows the tie strap to roll freely, keeping it from binding and making tightening the cinch easy. Removable, non-chafing neoprene padding makes this cinch easy to clean. The Elbow Relief Girth also features two double elastic bands around the Moore EZ buckle to help provide a more comfortable fit for the horse while allowing for proper cinch tension. Available in Black or Brown, sizes 26"-36".

No. 9960 EquiGrip "Comfort Cinch" Girth

Heavy 4" poly body (provides spur protection to girth) with 3" poly overlay. 3/8" closed-cell foam core provides additional comfort to the horse. Lined with breathable, no-slip PVC waffle-weave material. Stainless steel hardware with Big Horn's Moore EZ Buckle at one end, which allows more cinching leverage. Sizes: 26", 28", 30", 32", 34", and 36". Hand wash with mild detergent, line dry.

No. 9961 Draft Size (as above). Available in 40", 42", 44", and 46".

No. 9998 EquiGrip Girth

Made with breathable, no-slip waffle-weave material. Big Horn's Moore EZ Buckle at one end allows more cinching leverage. Sizes: 26", 28", 30", 32", 34", and 36".

Nos. 9960 & 9998
Breathable, No-Slip,
Waffle-Weave Detail

No. 9994 Neoprene Girth

Neoprene girth with removable webbing and buckles so each part can be cared for separately. Guaranteed to be non-chafing and non-slip, and is durable and flexible. Stainless steel buckles with Big Horn's Moore EZ Buckle at one end, which allows more cinching leverage. Colors: Black or Brown.. Sizes: 28", 30", 32", 34", 36".

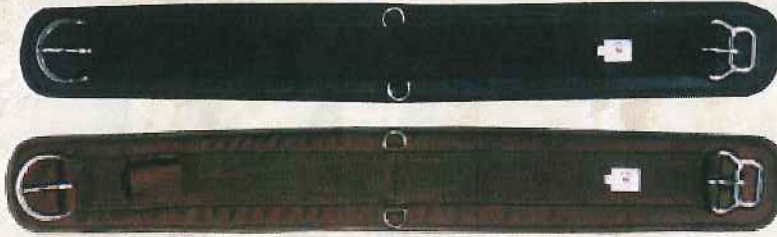

9982 Western Girth Girth with 1/2" black felt, roller buckle on one end, with chocolate brown leather wear leathers on both ends. Big Horn's Moore EZ Buckle at one end allows more cinching leverage. Sizes: 26", 28", 30", 32", 34", 36".

No. 9972 Super Tuff Made of heavy 3" 4-ply webbing. Lined in Tuffy felt. Non-irritating and non-burning. Stainless steel hardware with Big Horn's Moore EZ Buckle at one end, which allows more cinching leverage. Non-slip. Brown and Black only. Sizes: 28", 30", 32", 34", and 36".
